MRS. Jennie States that Sometime Around September 26, 2005 She placed Approximately 9 Boxes containing Personnel Files and other Personal Files in the Hallway of the City Hall (west side) to be burned by Members of the Fire Department. She States that She had spoken with Chief Tim Jennings, Hal Shelley and Capt. Kelly Meacham about destroying the Files by burning them. She also States that Captain Kelly Meacham ^{only spoke to Kelly} and Terry Daniels, Andy Gentry, Austin Bayless and Paul Hornine, about coming over to get the Files to burn, a Big Sack of Files. She States that she began to bring the boxes of Files into her office on 9/23/05 to go through them to see what she had to burn. She States that she had a very large Heavy Duty Trash Bag of Files that was given to Capt. Meacham for him and his shift to burn. The large Bag of Files was suppose to be burned by him on that day. On 9/26/05 she States that she placed the 9 Boxes in the Hallway to be burned. I think that they burned the House on October 4, 2005. MRS. Gunnells States that there was at least once or twice that she spoke to Hal Shelley and he stated that they did not have time to burn the Files, he told her that they would probably burn the other Files when they burned the House, she is not sure what house he was talking about. — Over —
